

BARCELONA²⁵

SETAC Europe 2015 

SETAC Europe 25th Annual Meeting
3-7 May 2015 - Barcelona.setac.org

SUBMIT YOUR ABSTRACT TO THE SESSION

Wastewater Reuse and Contaminants of Emerging Concern

under the theme

EC - Identification and prioritization of emerging contaminants

Topics within the following scientific directions are welcomed:

- Microbiome, mobile antibiotic resistome, micropollutants in treated wastewater and in downstream aquatic/terrestrial environments
- Uptake and transmission of micropollutants and antibiotic resistant bacteria and resistance genes in crops
- Effect-based bioassays required for wastewater reuse schemes
- Technologies efficient/economically viable to meet the current wastewater reuse challenges
- Human health risks associated with wastewater reuse
- Risk assessment and policy development

Chairpersons

Dr. Despo Fatta-Kassinos

Nireas-International Water Research Center
University of Cyprus

Dr. Célia Manaia

Centro de Biotecnologia e Química Fina
Universidade Católica Portuguesa

Submission open from 6 October to 26 November 2014 at
www.barcelona.setac.eu
