The Environment Agency Austria is Austria's largest organization of experts on all environmental issues. As an independent partner, we are working to build bridges between the economy, science and politics at national and international level. With more than 500 experts in 55 academic disciplines we are a leading provider of environmental solutions.

We offer a

Master/PhD or PostDoc Position for implementation of an LC-HR-MS/MS method for Non-Target Screening in the aquatic environment

Description of work

- Method development for sample preparation by solid-phase extraction
- Potential method application on real samples

Expectations

- Analytical thinking
- Experience in LC/MS
- Experience with data evaluation
- Enthusiasm for environmental research

We offer

- a task area in which you actively contribute to the development of the environment and society
- a varied range of activities in environmentally relevant subjects
- good development opportunities in a dynamic environment
- collaboration with a motivated team
- an attractive working place close to the center of Vienna
- as an employer attractive opportunities for professional development for highly qualified, environmental conscious people

Candidates with strong communication skills, resilience, fast perception and collaborative skills are highly encouraged to send their complete application documents.

Please send your application including a cover letter and detailed curriculum vitae until **30th September 2017** by e-mail to:
