

Program workshop on micropollutants, metabolites and mixtures (3Ms) in drinking water and its sources

Day 1 - Setting the Scene

13.00 – 13.30 Welcome by the host and introduction to the programme

13.30 – 14.15 Setting the Scene

Susan Richardson: Micropollutants, metabolites and their mixtures in drinking water and its sources – an overview

14.15 – 14.30 Break

14.30 - 15.30 Session Micropollutants and metabolites in drinking water and its sources

14.30 – 15.00 Tamara Grummt (UBA Germany): Toxicity assessment (methods, parameters, end-points, evaluation of results)

15.00 – 15.30 Arnaud Boivin (ANSES France): Regulatory and monitoring approaches

15.30 - 17.30 Session Mixture effects of micropollutants and metabolites in drinking water and its sources

15.30 – 16.00 Bernadette Ossendorp (RIVM, Netherlands): Cumulative risk assessment of pesticide residues in food: legal framework and state of affairs

16.00 - 16.30 Break

16.30 – 17.00 Thomas Backhaus (University of Gothenburg, Sweden): Toxicological and ecotoxicological assessment of micropollutant mixtures: concepts, approaches and empirical evidence

17.00 – 17.30 Ron van der Oost (Waternet, Netherlands): A perspective on (existing and/or) possible regulatory & monitoring approaches

17.30 – 18.00 Short wrap-up and preview/introduction to the format of day 2

18.00 Ice-breaker & reception

18.30 Dinner

20.30 End of day 1

Day 2 - Interactive discussions (chaired by the experts from day 1)

09.00 – 10.30 Session I (micropollutants and metabolites) (chaired by experts from day 1)

09.00 – 10.00 Discussion in small sub-groups (on a set of pre-defined questions)

10.00 – 10.30 Presentation of results from sub-groups to full audience

10.30 – 11.00 Break

11.00 – 12.30 Session II (mixtures) (chaired by experts from day 1)

11.00 – 12.00 Discussion in small sub-groups (on a set of pre-defined questions)

12.00 – 12.30 Presentation of results from sub-groups to full audience

12.30 – 13.30 Lunch

13.30 – 14.30 Wrap-up session
